Hey Animal Heroes!

This month we focus on the environment because every year on the 5th of June we celebrate World Environment Day.

What does this day mean?

World Environment Day is a day for all kinds of people from all over the world to come together to do things to take care of the Earth.

What does the word 'environment' mean?

The environment means everything in the world around us - this includes everything living and everything non-living on our planet Earth.

Dan-Dan the dog wants to know:

Should we only take care of Earth on World Environment Day (WED), or should we do something every day?

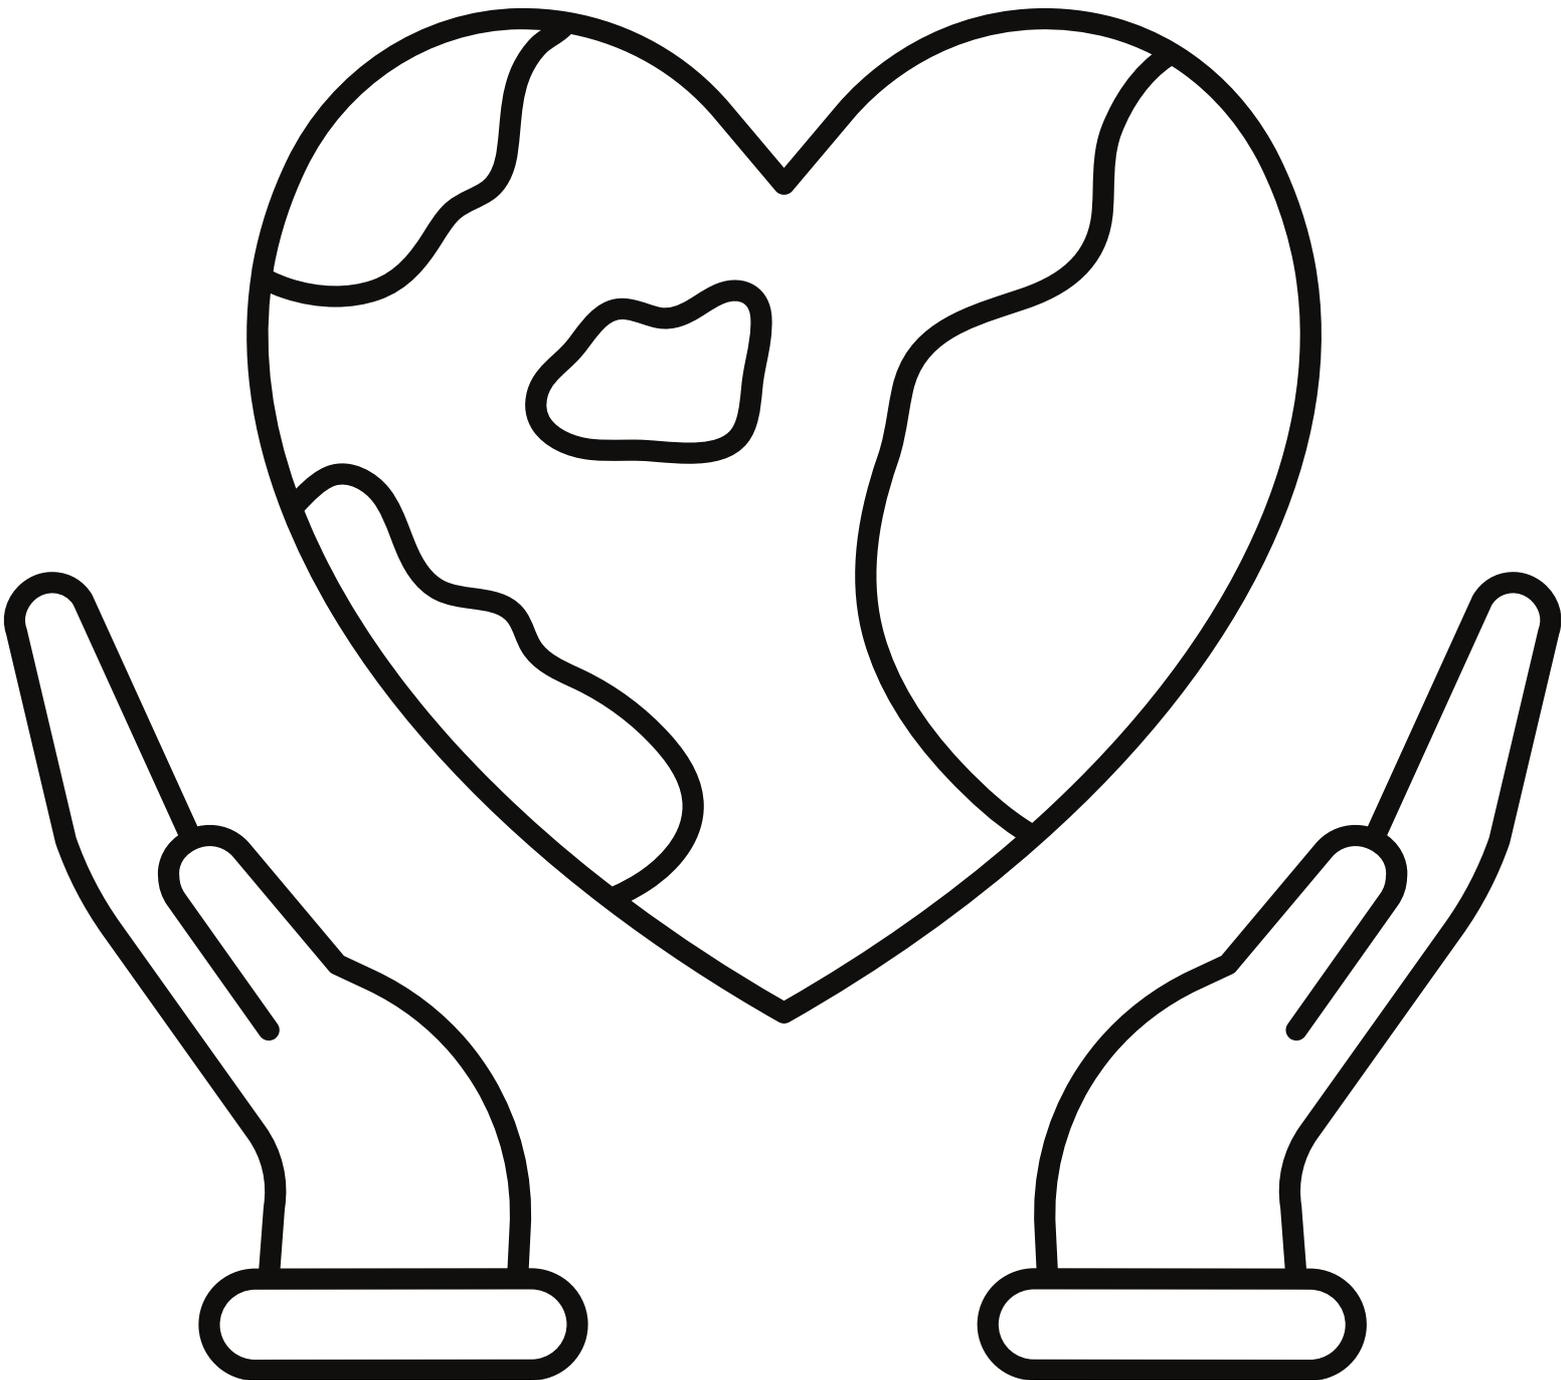

Every day

OR

only WED

Why?

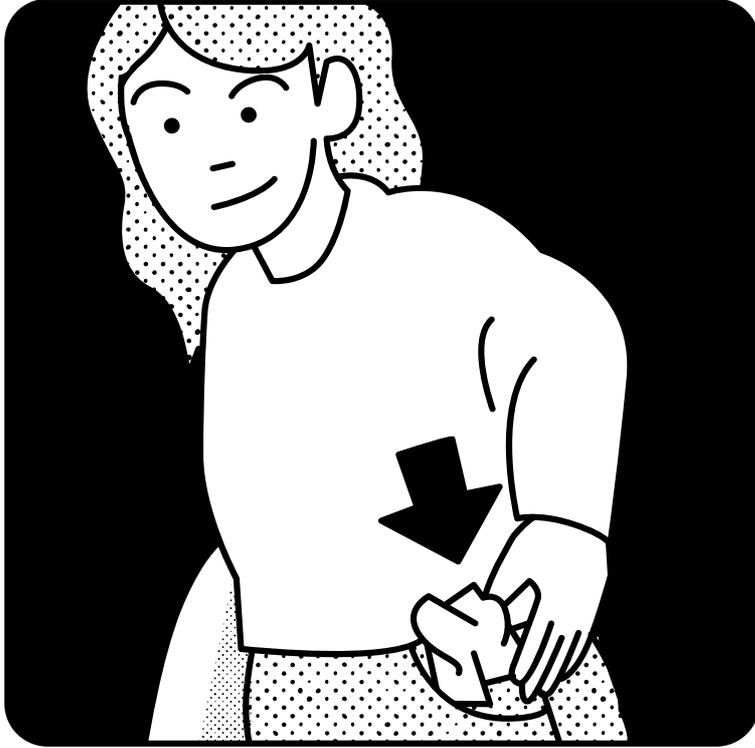

Let's take care of the world together!

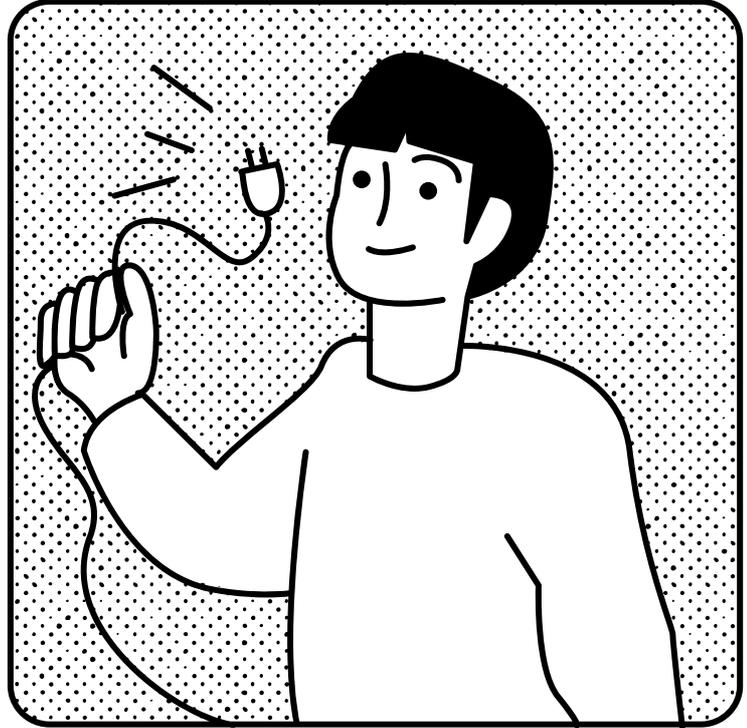

Color the Earth heart and caring hands in your favorite colors!

EASY things we can all do to **HELP** the **ENVIRONMENT**

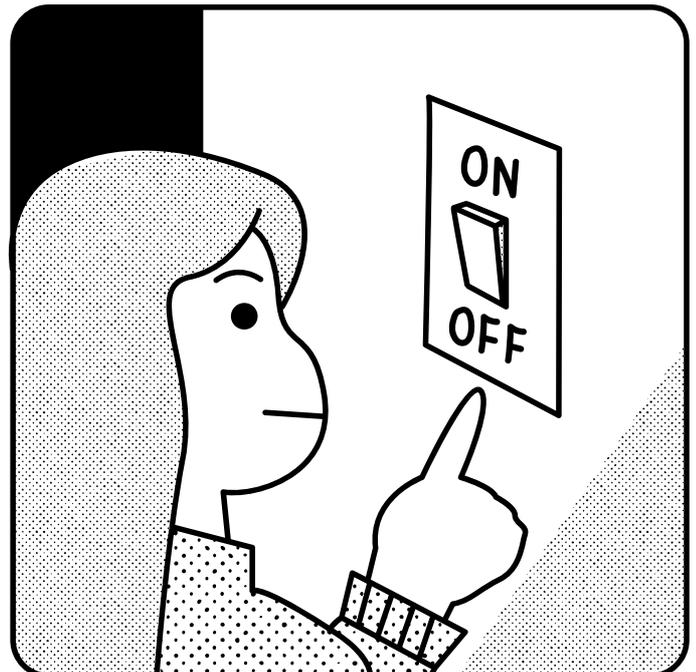

Pocket your small trash.

Conserve energy!

Clean as you go!

**Turn switch OFF when
not in use.**

Write down what **YOU** will do
to **HELP** the **ENVIRONMENT** ...

STOP! Can you name all the things these people are doing to care for the environment?

Friends, only **COLOR** in the **PICTURES**
of things you think are **BAD**
for the **ENVIRONMENT**.

If we don't take care of the environment, many animals will also be very sad and they will suffer.

Help our friends clean up their **ENVIRONMENT** by showing them where the **TRASH** is - **COLOR** it in!

In June we celebrate Father's Day. Count how many cubs this lion dad has....

Write your answer in this block:

Meet lion Kimba

Quick facts:

- Kimba is 20 years old.
- He was born on the LIONSROCK property in 2002 when it still belonged to the previous owner and before FOUR PAWS took over.
- He lives in the special care unit where he receives specialised care due to his advanced age and specific needs.

Meet Kimba, he's a very lucky lion! Before FOUR PAWS took over the land where LIONSROCK Big Cat Sanctaury today stands, it was a game breeding and hunting farm. This meant many lions just like Kimba were sold, hurt and killed on this farm.

Luckily for Kimba, FOUR PAWS brought over the property just in time and Kimba, along with several other lions, were saved in the process.

Did you know?

A lion's heels don't touch the ground when they walk. You can almost say they are tiptoeing all the time!
