

GAME INSTRUCTIONS

Everyday bear life in the Bear Sanctuary

Which bear do you want to be today? Masha, perhaps? Or Michal? At the beginning you are in your cave and that's where you want to go back to at the end of the day. Along the way, beautiful and not so beautiful things happen in the forest. Place the play figures in the cave, roll the dice and off you go at an amble pace.

When you come to a field with a picture, check the instructions to see what you have to do.

At the conifers you have to climb up and down. This way you either have to go back or you can take a short cut.

Picture 1: Bear on tree

Oooh, it's a hot day. Fortunately there is shade. But resting takes time. Pause for a round.

Picture 2: Bathing bears

How nice it is to play and bathe with friends. You come refreshed and excited from bathing and start running. Two fields ahead. One player of your choice may join you.

Picture 3: In the food kitchen

You have secretly broken into the food kitchen several times and have become quite fat. That makes you slow down. Move back two spaces.

Picture 4: At the dentist

Some guests have secretly thrown biscuits over the fence to another bear. Oh dear, that's not good at all. Now he has to go to the dentist. But good for you, because it hits another bear. Who has to pause once? You get to decide.

Picture 5: Enrichment

The keepers have given their best to build a nice enrichment. You want to get there first to find out how to get the food, and race against the other bears. Everyone rolls the dice once. Whoever has the highest number gets to draw.

Picture 6: Too many people

Oh dear, there are so many people here today and they are so noisy! You'd better take a long way through the forest. Take the small diversion on the playing field.

Picture 7: Mucking out

A lot of bear dung has just been removed. You feel very good and think that you have reached your goal for the day. You can run straight to the cave and win.
